

Accelerated Master's Program - Acknowledgement Checklist

You are required to schedule an appointment with your assigned Academic Counselor/Advisor; during this session you will review program requirements, complete the form and your Academic Counselor/Advisor will submit the completed form to Admissions. You can schedule an appointment through your student success network via uSucceed (jwuLink > Academics > uSucceed).

Name: _____ **Student ID:** _____

Expected Graduate Major: _____

- Grades of C or better in undergraduate equivalents are required for graduate foundations or prerequisites of the program as outlined in the Accelerated Master's admissions requirements in the [catalog](#).
- I understand that if I am a recipient of the Federal PELL Grant graduate level coursework will not calculate into my full-time status.
- The number of graduate-level courses I am permitted to enroll in as an undergraduate student is dependent upon my chosen graduate program, my senior year enrollment, my expected date of graduation and the graduate course schedule.
- As a student in the accelerated master's program, I understand that I may enroll in one graduate-level course during each semester of my senior year and complete up to three graduate courses. I understand that I may opt to enroll in one graduate course in the summer preceding my senior year.
- I understand that I am able to register for a maximum of 18.00 undergraduate-level credits (21.00 if I am SHARP eligible) while also enrolled in a graduate course.
- I understand that to be in good academic standing for the Accelerated Master's Program, I need a minimum GPA of 3.00 in my graduate-level coursework. Failure to achieve/maintain a 3.00 graduate-level GPA will result in academic probation. Students are allowed two semesters on academic probation. More than two semesters on academic probation will result in Academic Program Dismissal. If my graduate-level GPA is below a 2.00, I will be dismissed from the program and will not be eligible to apply to any other graduate program.
- I understand that I must notify my assigned academic counselor/advisor if my Accelerated Master's Program status changes at any time while completing my undergraduate degree program.
- Any graduate level course taken while enrolled as a graduate student will be assessed the full graduate tuition rate. This includes any repeated course(s) that may have initially been taken as an undergraduate student.
- I understand that in order to officially be enrolled in a graduate program, I must successfully complete all undergraduate graduation degree requirements.

I understand that graduate-level courses taken while I am an undergraduate student will satisfy free electives in the order in which they are taken (if required) in my undergraduate program, and will also count towards both my undergraduate and graduate GPA. Some programs may allow graduate-level courses to count towards other undergraduate requirements. This will be reflected in your degree audit, if applicable.

OPT OUT: I choose to not have my graduate-level courses satisfy my undergraduate program requirements. I intend to satisfy my undergraduate requirements with undergraduate coursework. I understand that once I elect this option, graduate-level courses will permanently fall in the Unused Courses area of my undergraduate degree audit.

OPT IN: I choose to have my graduate-level courses satisfy my available (free electives) undergraduate program requirements.

Student Signature: _____ **Date:** _____

To be completed by SAS: Anticipated Start Semester to take first course in the Accelerated Master's Program: _____

Anticipated Undergraduate Graduation Date: _____ Credits Completed to Date: _____

Academic Advisor/Counselor: _____ Date: _____

SOATEST: Add test code of NOGR with score of 1 if student selected OPT OUT

Once form is complete scan into Perceptive and forward to appropriate Admissions Office:
